Why Breast Health Belongs in the Congregation:

- *Houses of Worship gather the community in a way that no other organization does – with a sense of safety and comfort*
- *One woman will die of breast cancer every 12 minutes in the U.S.*
- *When caught early, breast cancer boasts a 99% survival rate*
- *Women educated in a group setting are more motivated to make screening a priority*
- *No-cost screenings and treatment options exist locally but women don't know about them*
